

GLEB ARESTOV

Principal Software Engineer

Batumi, Georgia (open for relocation) | [WhatsApp](#) | [Telegram](#) | gleb.arestov@gmail.com | [LinkedIn](#)

SUMMARY

Full Stack Software Engineer with TypeScript/Node expertise, Electron desktop apps and Chrome Extensions, Windows and Mac packaging. Builds end-to-end features, optimizes performance, and delivers dependable, fast products. Strong at delivering MVP for pitching products to investors, cross - functional collaboration and finding hacks and solutions to solve complicated problems.

SKILLS

Programming: HTML/CSS, JavaScript, Chrome Extensions, Node.js, Node.js streams API, Electron, React.js, Redux, MobX, Webpack, Svelte, Rollup, TypeScript, Puppeteer/WebDriver, Clojure, WebWorkers, Python.

Databases and platforms: PostgreSQL, MySQL, MariaDB, MongoDB, Elastic Search, Redis, Level DB, IndexedDB.

Instruments: Docker, Git, CI/CD, Performance/Memory profiling, Domain-Driven-Design, AWS.

Languages: English (Fluent), Russian (Native).

WORK EXPERIENCE

LINKKRAFT, (Russia) - start-up, offline-first desktop browser and digital knowledge tool.

Founder, Indie Hacker

November 2021 – Present

- **MVP:** Delivered a functional prototype for investor pitching by launching an MVP for managing bookmarks with web page snapshots and a “history tree” structure.
- **AI:** Reduced interface lag by processing Virtual DOM calculations in a separate Worker using AI-assisted pair programming, significantly improving page responsiveness.

SIDEKICK BROWSER, (USA) - start-up acquired by Perplexity.

Principal Engineer

May 2019 – October

2021

- Helped clients raise investments and **pass seed rounds by building an MVP** browser for extensions in Electron within 2 months, hiring and managing a team of 4 software engineers.
- **Increased usability and improved quality** of the product (browser with own extensions) by transferring and rewriting code from electron to chrome extension within 2 weeks.
- Launched "feature contributed to #1 Product of the Day/Week" on Product Hunt (2020, Sidekick Browser) by Improving search engine speed 2–3 times faster than Chrome’s internal API and **designing and reviewing architecture** for workspace and icon features.
- **Developed and launched Sidekick** by leveraging a custom framework originally developed for music applications, now being enhanced to support more complex apps and higher performance.

INTERNATIONAL COMPANIES, (Russia) - Leroy Merlin, Motion Tailor, Trucker Path, EuroChem.

Full Stack Software Engineer

August 2008 – May

2019

- **Fullstack:** Launched MVP for e-commerce clients to generate product-specific video templates in ~1 year by building a React-based interface, backend storage solution, and browser-based autotests, enabling scalable automated content production.
- **Performance optimization:** Enhanced communication and efficiency between QA and developers by implementing JavaScript-based browser autotests during a system rewrite phase.
- **MVP:** Delivered MVP of marathon participant visualization on a map in 1.5 months, showing density via dynamic curves, by collaborating closely with UX/UI designer and partially extending custom JavaScript framework.
- **Automated tests:** Reduced regression testing time from 1 day to 30 minutes by designing and deploying automated browser tests with Puppeteer, including integration with extensions, improving feature validation speed.

EXTRA-CURRICULAR ACTIVITIES

PUBLIC TALKS:

- FrontendConf 2015 – “Declarative Goal-Setting Programming Approach”
youtube.com/watch?v=vjMqtRG_cV8
- HighLoad++ 2012 – “Browser Comet Connections Multiplexing (JavaScript, LocalStorage)”
youtube.com/watch?v=5TEaxF9KP9A

AWARDS AND RECOGNITION:

- Received a \$50 Amazon gift card from BitTorrent for sharing techniques enabling MP3/Video playback in IE6/IE7, later used to monetize uTorrent (millions of users)
- Tizen App Challenge, 2014 (“Honorable Mention” for adapting own application for Tizen platform)
- Chrome Apps Contest – Google Technology User Group, 2010 (1st place)
- Opera Widgets Challenge, 2010 (1st place)
